OCCASIONAL CHAIRS

Our chair designs are derived from classical shapes and styles that have been given new life through innovative textures and accessories. Our attention to detail is conveyed through the individual studding and piping. All our chairs are manufactured with hard wood frames using our standard glued, screwed and doweled method of construction. The seat fillings consist of a foam base with a fibre pad sewn in on the top. Each chair is also available in a wide selection of both fabric and leather coverings.
